

Same people at each buffer. The exponent matters only where two or more stations are within the buffer; exponent 2 was run at 1, 2, 3, 5, 10 and 20 km.
Supports, finest (1) to coarsest: Bogota fine unit, seccion, sector, localidad/municipio, municipio; Santiago zona, distrito, comuna; Sao Paulo area de ponderacao, municipio.
Design A: the people of each buffer are fixed across supports; samples grow with the buffer. Dashed line: 3 km, the paper's buffer.
